

” I am grateful for the dedication and reliability demonstrated by Miratech. I appreciate the Ukrainian team for their relentless performance, unbeatable reliability, and exceptional support. This collaboration was instrumental in achieving project success, and we look forward to celebrating future victories.

Project Manager

## OVERVIEW

Our client is the leading provider of end-to-end IT solutions for the public sector. They connect the Swiss population, companies, authorities, and administrations with secure and efficient services.

They needed to create a new complex solution while adhering to fixed project parameters, such as limited timeline and budgets. These constraints put immense pressure on the project, demanding meticulous planning, efficient execution, and effective customer negotiations.

## AT A GLANCE

### CHALLENGES

- Tight project parameters
- Budget constraints
- Strict timeline
- Technology customization
- Business & technology alignment

### OUTCOMES

- Implementation of new complex software solution in a tight timeline
- Agile methodology management, which helped save time and reduce errors
- Enhanced tax assessment performance

## ACHIEVING FINANCIAL TAX AUTOMATION EXCELLENCE IN RECORD TIME

### OBJECTIVE

The client aimed to find a balance between delivering the project on time, maintaining the desired quality, and adhering to the budget. This objective was critical to the success of their financial automation solution, as any deviation from the project parameters could have severe implications for the outcome.

### SOLUTION

Miratech combined their expertise in implementing complex software solutions with the client's in-depth business domain knowledge.

The **Tax Assessment project** is an example of how Miratech's core expertise which delivered a **2-year complex 80,000 person-hours project on-time and on budget** utilizing a highly motivated collaborative team approach and award-winning Agile Portfolio System Methodology.

Over **7,000 function points of functionality** with handling of complex processes, **10+ integrations**, hundreds of features and thousands of use cases were implemented and delivered.

### RESULTS

Despite the challenges posed by the project's parameters, the collaborative efforts of the client and Miratech resulted in the timely completion of the initial project readiness. The solution proved to be effective and reliable, which empowered the company to continue enhancing and maintaining the product with a mature team of experts.
